Hello Kerry,

As a concerned stakeholder, LADOT has been working to mitigate the homeless issue on the Ivar St side of the Vine parking structure. Although our effort to keep the sidewalk clear has been fairly successful, it has unfortunately had the effect of encouraging the homeless to seek shelter inside the garage.

We understand, from our parking operator, MPI, that the BID is very helpful in providing a security patrol of the first floor during the day. Which in turn, results in the homeless moving to the upper levels, where there is no patrol.

Given the situation and due to the success of the BID's security patrol, we'd like to respectfully inquire if it would be possible for the BID to patrol the upper levels in addition to the first floor.

Looking forward to your response,

Belkis Del Valle
